REACH and SVHC Compliance Information

Supplier Name: Jauch Quartz GmbH
Address: In der Lache 24
D-78056 Villingen-Schwenningen

Based on information obtained from our component suppliers, this document certifies that our

- JXG32, JXG53 and JXG75 crystal product series

as a final article* does not contain any of the 242 Substances of Very High Concern (SVHC) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) in the Candidate List of 07/11/2024 and previous updates.

*Please be aware that these articles use a glass frit as a sealing material that originally contains Diboron Trioxide (CAS 1303-86-2) and Lead Oxide (CAS 1317-36-8) as ingredients, which are listed in our material declaration sheets. However, Diboron Trioxide and Lead Oxide are chemically transformed into the final compound of the sealing glass substance. According to ECHA, such kind of SVHCs contained in a final glass compound don't have to be declared.

Individual full material declaration sheets are available on request.

This certificate is provided to the best of our knowledge and belief, and based on our current level of knowledge. The signature below verifies that the statements above are valid and accurate.
